

Professional training

Pharma Strategy & Marketing

October 18 to 22, 2021

Program

Smart Pharma Consulting proposes a training for marketing and sales managers of pharma companies wishing to become “High Performers”

Day 1: Strategic Thinking applied to Companies

- Evolution of the worldwide pharma business model
- Changes in the French pharmaceutical sector (2020 – 2025)
- “Big Pharma” strategies’ analysis

Day 2: Marketing Strategic Thinking

- Optimization of brand value: pharma branding
- Dynamic prescribers’ segmentation: Behavioral Prescribers Segmentation (BPS) approach
- Strategy and creativity (e.g.; Blue Ocean strategy)
- Strategic planning: SWOT, brand strategy card, etc.

Day 3: Marketing Tactical Thinking

- “New clients” management (Regional Health Agencies, patients, patients’ associations, etc.)
- Digital marketing and omnichannel approach
- Optimization of the medico-marketing-sales investments
- Definition of Key execution indicators (KEIs) and Key performance indicators (KPIs)

Day 4: Specialized Market Segments

- Marketing of niche and hospital products
- Marketing of generic and biosimilar products
- Marketing of mature products

Day 5: Development of Managerial Skills

- What future for medical reps?
- Sales force management optimization
- Team leadership
- Corporate behavior

Teaching method

Unique method, acclaimed for 29 years:

- Educative challenge (e.g.; analytical rigor, relevance of recommendations, structure and quality of presentations)
- Training of participants to problem-solving (based on case studies, enriched by practical exercises)
- Co-animation with 6 experienced professionals from the pharma sector
- Limited number of participants (maximum 12) to favor discussion and optimize supervision
